Good Morning;

Just a brief update for your awareness that no incidents were reported by the PSPC team monitoring the NWM cameras overnight, I have also included some pics of the NWM this morning. A banner on the temporary fence remains, however, other signage on the site was removed overnight.

Regards

Brad Paradis

Subject: IMPORTANT FW: 00009-22 - Impacts to CI - Cenotaph Protection
Importance: High

Good Evening;

As discussed Public Services and Procurement Canada (PSPC) was requested this evening to install contiguous fencing around the National War Memorial (Cenotaph) and the Tomb of the Unknown Soldier (please see pic below). Location of fencing installation will follow the Blue perimeter as indicated in the drawing below.

Based on our discussion, PSPC has started to mobilize with plans to begin installation later this evening, or early tomorrow morning pending the support of Ottawa Police Services at the time of installation. The fencing will be 8ft high and the panels will be bolted together.

A copy of the City of Ottawa's request is attached to ensure that your organization has a written copy for your records.

Please let me know if you have any questions.

Thank you Joanna for the confirmation.

Location of fencing installation will follow the Blue perimeter as indicated in the drawing below.

As an FYI I have briefed internally as well as DND, NCC and VAC , and we have already started to mobilize.

Hi Caroline,

Apologies for the confusion. The area identified in blue would be our preferred perimeter.

Thank you,
Joanna

He has some concerns about the size of the perimeter being requested in the letter. We had sent the picture below showing where we thought the perimeter fence would be installed.

Is there someone Brad can talk to you right now about options? Something including all the trees, as stated in the letter would be very large.

Good evening,

Please find attached the formal letter requesting protection from our General Manager. Can you please advise if we should email the letter directly to Mr. Paradis or if there is a different process to follow for this request?

Thank you,
Joanna

Good evening,

Many thanks for facilitating this request. We are just getting the letter signed off now. It will be ready shortly.

In terms of your questions:

- The area in the map identified in blue would be our preferred perimeter
- The installation would need to take place by tomorrow afternoon (Friday, Feb 4)
- While we are not experts on the type of fencing, our police colleagues in the National Capital Region Command Centre suggested eight to ten foot-tall fencing, bolted together.

Finally, we would ensure police protection during installation.

Please let us know if this is sufficient to submit the letter.

Best regards,

Beth

Hi Beth,

Brad Paradis at PSPC is the correct contact for you to direct your written request to concerning the Cenotaph. In the meantime I'm connecting you with Caroline from PSPC (in cc) who has some questions around the request – see below.

Thank you,

Tristan Greene

Subject: RE: 00009-22 - Impacts to CI - Cenotaph Protection

Hi GOC – clarification please.

Two questions:

- When does this need to be done by?
- What exactly is the ask?

For the second question, it's a terminology issue, when you say barriers – do you mean fences? Please see the picture below. The yellow area is the pedestrian zone with the red lines indicating where jersey barriers are already in place. This has already restricted vehicles. The blue area is where we suggest that we could erect fencing (not barriers) and the red lines would indicate if we were just going to put fencing up around the Tomb of the Unknown Soldier rather than both the Cenotaph and the TUS. The fence we are proposing is an 8' x 10' panels of metal constructions fence.

Please let us know as soon as possible.

Regards,

Caroline Mockler
